

Important Recall Information

Dear customer,

We are writing to inform you of the recall information associated with the Mommy's Baby Lovely Deluxe Baby Doll Playsets we sold online at Temu.com from August 2024 through November 2025. We are conducting a voluntary recall with the U.S. Consumer Product Safety Commission.

This recall involves Mommy's Baby Lovely Deluxe Baby Doll Playsets, model NEW319A. The recalled playsets includes a baby doll, a toy stroller, and plastic accessories including a miniature potty, a baby bib, a pacifier, a plate, a spoon, two cups, two toothbrushes, two bottles of body wash, a bar of soap, and a soap dish. "Product Model: NEW319A" is printed on a sticker affixed to the front of the box.

The recalled doll playsets violate the small parts ban because the toys are for children under three years old and some of the accessories are small parts, posing a deadly choking hazard.

Please stop using the recalled toy immediately, take them away from children, and contact TOYHW for a full refund. Consumers will be asked to throw away the baby doll playsets and email a photo of the disposed product to TOYHWRecall@163.com to receive a full refund.

For questions, please email TOYHWRecall@163.com.

Best Regards,
TOYHW
